

CHEBUCTO
CONNECTIONS

Chebucto Connections' Food Program Survey

Chebucto Connections is looking for your feedback on the food programs we provide! We want to better understand how they are working, whether they are having any benefits to residents, and where we can improve.

This questionnaire is voluntary and confidential. That means that if you do not feel like answering the questions you do not have to, or you can leave any of the questions blank. It also means that your name will not be attached with your answers. To thank people for their time and input, we will be doing **3 prize draws for \$50** from those who participate. To be entered into the draw which will take place in April, we do need your name and contact information, but this will only be used for the draw and will not be connected to your responses.

If you choose to participate, the questions should take you about 15-20 minutes to complete. There are no wrong answers. Please answer the questions as truthfully as possible for you and your household, and return the survey to us by Fri, March 28th. The answers will help Chebucto Connections understand how well we are supporting the community and how to improve our food programs.
